

SIVA PADMANABAN (Senior Software Engineer)

Kuala Lumpur, Malaysia | +60 11-31384876 | sivass2703@gmail.com | [LinkedIn](#)

PROFESSIONAL EXPERIENCE

Accomplished **Technical Lead** with 9 years of experience delivering secure, scalable, and high-performance systems across **fintech, travel, and e-commerce domains**. Specialized in **Node.js, Express.js, TypeScript, MySQL, MS SQL, microservices, and event-driven architectures**. Skilled in designing **digital wallets, loan eligibility systems, payment portals, and enterprise API integrations**. Proven track record of **enhancing scalability, performance, and reliability** while leading backend teams, implementing **CI/CD pipelines**, and driving **enterprise-grade delivery in Agile environments**.

TECHNICAL SKILLS

- **Languages & Frameworks:** Node.js, Express.js, TypeScript, JavaScript (ES6+), ReactJS, PHP, Laravel and CodeIgniter.
 - **Databases & Cache:** MySQL, MS SQL Server, PostgreSQL, Prisma ORM, Redis (caching, sessions).
 - **Architecture & Systems:** Microservices, Event-Driven Architecture, Kafka, Event Emitters, Clean Architecture, SOLID Principles, Domain Driven Development.
 - **Cloud & DevOps:** Azure (DevOps, AKS and ACR), Docker, Kubernetes, Terraform, AWS (EC2, RDS, S3, CloudFront, Lambda, API Gateway, Load Balancer, EKS and ECR), CI/CD (GitHub Actions, Jenkins), PM2 process manager, Argo CD, Grafana, CloudWatch, Prometheus, Winston (monitoring & dashboards)
 - **APIs & Security:** REST APIs, GraphQL, WebSocket, Webhook, JWT, OAuth, Passport.js, Rate Limiting, CORS, SQL Injection & XSS Prevention, Third-Party API Integrations, SSL/TLS.
 - **Testing & Tools:** Postman, Jest, Supertest, Git, Jira, Agile/Scrum
-

PROFESSIONAL EXPERIENCE

Sr Software Developer – *Simbiotik Technologies SDN BHD, Petaling Jaya, Malaysia* (Feb 2020 – Present)

Client: QviLifestyle (Travel & Fintech)

- Architected and deployed a microservices-based backend on Node.js & Kubernetes, improving scalability by 40% and reducing deployment time by 25%.
- Designed and implemented a secure, fault-tolerant payment portal microservice with end-to-end encryption, multi-mode payments, invoice generation, and Microsoft CRM integration.
- Built an event-driven, architecture-based microservice supporting wallet programs with USD deposits, asynchronous/callback multi-vendor hotel API integration with Redis caching, and a vacation redeem program for secure hotel booking packages.
- Delivered JWT-secured web (ReactJS) & mobile (React Native) APIs with enforced single-device login, ensuring account protection and compliance-grade security.

- Automated reservation refund workflows by developing a custom authorization module, reducing manual processing time.

Client: Asiaspace SDN BHD (Telecom & ERP)

- Digitized all manual tower management processes, including license renewals and tenancy tracking.
- Built a CMS with role-based access control and integrated REST APIs for enterprise clients.
- Implemented real-time WebSocket features to enhance communication in the vendor and supplier inventory support system, improving responsiveness and reducing data overhead compared to traditional polling.
- Designed and deployed CI/CD pipelines, ensuring faster and more reliable deployments.

Principal Web Developer – Zurdox Inc, Bangalore, India (Jul 2019 – Dec 2019)

- Developed a sports e-commerce platform with secure checkout using Node.js & MySQL.
- Built a SaaS networking platform for sports coaches and a content aggregation portal with custom RSS feed pipelines.

Web Developer – Orbiten Technologies, Chennai, India (Nov 2017 – Jun 2019)

- Developed a Koperasi loan management system enabling electronic product purchases through monthly salary deductions.
- Built a scalable ticketing system with concurrency controls to prevent overselling during high-traffic events.
- Delivered a fashion e-commerce platform with secure mobile API integrations for online payments and order management.

Junior Web Developer – Cartzapp, Chennai, India (Jun 2015 – Oct 2017)

- Designed RESTful APIs for product synchronization and mobile integration.
- Contributed to deployments on cloud-hosted environments and optimized Node.js + MySQL applications for performance and scalability.

Education

Bachelor of Computer Science – [Einstein College of Engineering – India, 2011- 2015]

LEADERSHIP & MENTORING

- Led and mentored cross-functional backend teams through full SDLC.
- Conducted code reviews, optimized collaboration, and guided junior developers.
- Advocated DevOps practices, introducing CI/CD pipelines for faster, reliable releases.
